

## 2706-PENETM

Industrial automation components

<b>Manufacturer</b>	Allen-Bradley
<b>Catalog number</b>	2706-penetm
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Interface Type</b>	ethernet
<b>Product Type</b>	Module

### Description

The 2706-PENETM module from Allen-Bradley is an advanced device that utilizes an ethernet interface for communication. It provides reliable connectivity in industrial automation systems, enabling efficient data management and integration with other components. Its design is tailored for demanding industrial environments, making it an ideal solution for a variety of applications.
