

2711-B6C20

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711-b6c20
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Frequency	50 - 60 Hz
Signal Type	240
Relay Specifications	240 VAC
Voltage	100 - 240 V
Interface Type	ethernet
Cable Specification	320 × 234
Signal Level	240 V

Description

The Allen-Bradley 2711-B6C20 operator interface terminal is a sophisticated device designed for interaction with automation systems. It operates within a voltage range of 100 to 240 V and a frequency of 50-60 Hz, providing versatility for various industrial applications. Featuring an ethernet interface, it allows for easy integration into industrial networks. The cable specification is 320 × 234, ensuring adequate signal quality. The device supports a signal and signal level of 240, ensuring stable and reliable operation in challenging industrial environments.
