

2711-M3A19L1

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711-m3a19l1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	DC
Signal Type	24
Signal Level	24 V

Description

The 2711-M3A19L1 module from Allen-Bradley is an advanced device designed for use in automation systems. It operates at a DC voltage of 24V, making it an ideal solution for applications requiring stable power supply. The signal type is 24, ensuring high precision and reliability in data transmission. Its design allows for easy integration into existing systems, enhancing operational efficiency.
