

2711-T6C20L1

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711-t6c20l1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Interface Type	ethernet
Signal Type	24
Cable Specification	320 × 234
Signal Level	24 V

Description

The Allen-Bradley 2711-T6C20L1 operator interface terminal is an advanced device designed for interaction with automation systems. It operates at a voltage of 24V, ensuring stable power supply. Equipped with an ethernet interface, it allows for easy integration into industrial networks. The cable specification of 320 × 234 ensures adequate connection quality. Both the signal type and signal level are 24, guaranteeing high performance and reliability in industrial applications.
