

2711-T6C2L1

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711-t6c2l1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Signal Type	24
Cable Specification	320 × 234
Signal Level	24 V

Description

The Allen-Bradley 2711-T6C2L1 operator panel is an advanced device designed for interaction with automation systems. It operates at a voltage of 24V, ensuring stable power supply. The cable specification is 320 × 234, allowing for easy connection and integration with other components. Both the signal type and signal level are also 24, ensuring consistency in communication with the system. This device is ideal for industrial applications where reliability and precision are critical.
