

2711-T6C3L1

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711-t6c3l1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Cable Specification	320 × 234
Signal Level	24 V
Voltage	24 V
Signal Type	24

Description

The Allen-Bradley 2711-T6C3L1 operator panel is designed for use in industrial automation systems. With an operating voltage of 24V, the device ensures stable power supply and reliable communication. The cable specification of 320 × 234 allows for easy integration with existing systems. Both the signal type and signal level are also 24, ensuring consistency and efficiency in data transmission. This solution is ideal for applications requiring precise monitoring and control of industrial processes.
