

2711E-T10C6

Industrial automation components

Manufacturer	Allen-Bradley
Catalog number	2711e-t10c6
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Signal Type	230
Relay Specifications	230 VAC
Voltage	230 V
Signal Level	230 V

Description

The 2711E-T10C6 operator panel from Allen-Bradley is designed for operation in demanding industrial environments. The device supports a voltage of 230V and a signal type at a level of 230. The relay specification also stands at 230, ensuring reliability and stability in operation. Ideal for use in industrial automation.
