

## OSS-200

Industrial automation components

|                       |                                  |
|-----------------------|----------------------------------|
| <b>Manufacturer</b>   | Allen-Bradley                    |
| <b>Catalog number</b> | oss200                           |
| <b>Category</b>       | Industrial automation components |
| <b>Product type</b>   | Industrial automation components |
| <b>Status</b>         | Active product                   |

### Technical specification

|                                 |             |
|---------------------------------|-------------|
| <b>Voltage</b>                  | 100 - 240 V |
| <b>Component Specifications</b> | oss200      |
| <b>Frequency</b>                | 50 - 60 Hz  |
| <b>Product Type</b>             | Drive       |
| <b>Signal Type</b>              | 240         |
| <b>Signal Level</b>             | 240 V       |
| <b>Relay Specifications</b>     | 240 VAC     |

### Description

The OSS-200 is an advanced industrial drive that operates within a voltage range of 100 to 240 V and a frequency of 50-60 Hz. Compliant with the oss200 component specification, it delivers high performance in applications requiring precise control. The signal type is 240, ensuring stable operation under various conditions. Ideal for use in industrial automation.
