Manufacturer	B&R
Catalog number	4pp0650571-k65
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Display Size	5.7 inches
Display Resolution	320x240 pixels
Processor	Geode LX800, 32-bit x86, 500 MHz
Memory	128 MB DRAM, 232 kB SRAM
Interfaces	1x Ethernet (10/100 Mbit/s), 1x X2X Link, 2x USB ports

Description

The B&R 4PP065.0571-K65 is a 5.7-inch Power Panel from the Power Panel 65 series, designed for industrial automation applications. It features a QVGA TFT color display with a resolution of 320x240 pixels, providing clear and detailed visuals.

The resistive touchscreen offers precise input recognition, and the panel is equipped with 128 MB DRAM and 232 kB SRAM for efficient performance. Connectivity options include one Ethernet port (10/100 Mbit/s), one X2X Link, and two USB ports, facilitating seamless integration into various automation systems.

The panel operates on a 24 V DC power supply and has a maximum power consumption of 9 W. With an IP65-rated front, it ensures durability and protection in industrial environments. The compact design, measuring approximately 184 x 139 x 43 mm and weighing around 1.2 kg, allows for flexible installation in diverse settings.
