

## X20SLX910

Industrial automation components

<b>Manufacturer</b>	B&R
<b>Catalog number</b>	x20slx910
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Voltage</b>	24 V
<b>Product Type</b>	Controller
<b>Signal Type</b>	24
<b>Signal Level</b>	24 V

### Description

The X20SLX910 is an advanced industrial controller designed for automation systems. It operates at a voltage of 24V, making it an ideal solution for applications requiring stable power supply. The signal type and signal level also stand at 24, ensuring high precision and reliability in data transmission. With its robust design, the X20SLX910 meets the demands of modern industrial processes.
