

X67BC6321.L08

Industrial automation components

Manufacturer	B&R
Catalog number	x67bc6321l08
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	0.5 A
Interface Type	profibus
Signal Type	24
Relay Specifications	5 A
Voltage	500 V
Product Type	Controller
Signal Level	24 V

Description

The X67BC6321.L08 controller from B & R is an advanced device designed for industrial applications. It operates at a voltage of 500 V and a current of 0.5 A, ensuring stable performance in challenging conditions. Equipped with a Profibus interface, it facilitates efficient communication in automation systems. The signal type is 24 V, making it an ideal solution for applications requiring precise control. Additionally, the relay specification is 5, enhancing its versatility across various applications.
