Manufacturer	Beckhoff
Catalog number	cp6201-0001-0060
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor Options	Intel Celeron, Core i3, Core i5, Core i7
Core Count	Up to 8 cores
Ethernet Interfaces	2 independent ports
Storage Media	CFast card, 2.5-inch HDD or SSD
Expansion Slots	2 PCIe slots

Description

The Beckhoff CP6201-0001-0060 is a robust industrial Panel PC designed for demanding automation applications. Featuring an integrated fan cartridge cooling system with dual ball bearings and speed control, it ensures optimal thermal management.

The system supports up to 8 cores across Intel Celeron, Core i3, Core i5, and Core i7 processors, providing versatile performance. It offers two independent Ethernet interfaces for reliable network connectivity and supports storage media including CFast cards and 2.5-inch HDD or SSD.

The device includes dual PCIe expansion slots for additional interfaces such as USB, Ethernet, or PROFIBUS. Supplied with a 24 V power supply and an optional UPS, it ensures uninterrupted operation. Designed for front control cabinet installation, it operates within an ambient temperature range of 0 to 55 °C under Windows 10 IoT Enterprise, making it suitable for various industrial environments.
