Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel Atom® E3815, 1.46 GHz, 1 core
Memory	2 GB DDR3L RAM
Storage	40 GB CFast card
USB Ports	4 x USB 2.0
Ethernet Ports	2 x 100/1000BASE-T

Description

The Beckhoff CP6700-0001-0050 is a 10.1-inch Economy Panel PC designed for industrial automation applications. Featuring a single-finger touch screen with a resolution of 1024 x 600 pixels, it offers a user-friendly interface for machine control and monitoring.

Powered by a 24 V DC supply, this panel PC operates efficiently within a temperature range of 0°C to 55°C, making it suitable for various industrial environments. The device is equipped with two Gigabit Ethernet ports (100/1000BASE-T) for reliable network connectivity, and includes four USB 2.0 interfaces for connecting peripheral devices.

Its robust aluminum front and sheet-steel rear cover provide durability, while the front panel's IP54 protection ensures resistance against dust and water ingress. The CP6700-0001-0050 is an ideal solution for applications requiring a compact, reliable, and efficient panel PC in industrial settings.
