Manufacturer	Beckhoff
Catalog number	cx1030-0012-1003
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel Celeron M ULV 1.0 GHz
RAM	512 MB
Ethernet Ports	2 x RJ45, 10/100 Mbit/s
USB Ports	2 x USB 2.0
Operating Temperature	-25 °C to +60 °C
Protection Class	IP20

Description

The Beckhoff CX1030-0012-1003 is a compact, DIN rail-mounted embedded PC designed for industrial automation applications. Powered by an Intel Celeron M ULV 1.0 GHz processor and equipped with 512 MB of RAM, it offers reliable performance in demanding environments.

The device features two Ethernet ports (RJ45, 10/100 Mbit/s) for robust network connectivity and includes two USB 2.0 ports for peripheral connections. It operates within a temperature range of -25 °C to +60 °C and has an IP20 protection class, ensuring durability in various industrial settings.

The CX1030-0012-1003 supports Windows Embedded CE 6.0 and Windows Embedded Standard operating systems, providing flexibility for different application requirements. Its compact dimensions (142 mm x 100 mm x 92 mm) and low power consumption (approximately 15 W) make it suitable for space-constrained installations.

This embedded PC is ideal for control cabinets in applications requiring real-time performance, integrated visualization, and long-term dependability.
