Manufacturer	Beckhoff
Catalog number	cx2030-0113
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Intel® Core™ i7 dual-core GHz
RAM	2 GB DDR3
Ethernet Ports	2 ports
USB Ports	4 ports
Serial Ports	1 port
Operating System	Microsoft Windows Embedded Compact 7 OS
Operating Temperature Range	-25 to +60 °C
Maximum Power Consumption	28 W

Description

The Beckhoff CX2030-0113 is a compact and robust CPU module designed for industrial automation applications. It features an Intel® Core™ i7 dual-core processor with a clock rate of 1.5 GHz, ensuring reliable performance for demanding tasks.

Equipped with 2 GB DDR3 RAM, the module supports expansion up to 4 GB, providing flexibility for various applications. The CX2030-0113 operates on Microsoft Windows Embedded Compact 7 and includes the TwinCAT 2 NC I runtime, facilitating seamless integration into automation systems.

Connectivity options include two Gigabit Ethernet interfaces, one DVI interface, and four USB 2.0 ports, enabling versatile communication with other devices. The module also offers a D-Sub 9-pin RS232 interface for serial communication.

Designed for durability, it operates within a temperature range of -25 to +60 °C and has a maximum power consumption of 28 W. The CX2030-0113 is suitable for applications requiring a reliable and
