Manufacturer	Beckhoff
Catalog number	ip1002-b518
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Number of Inputs	8 channels
Nominal Input Voltage	24 V DC
Input Filter	3 ms
Input Connections	M12, screw type connectors
Housing Material	PA6 (polyamide) material

Description

The Beckhoff IP1002-B518 is a robust Fieldbus Box designed for industrial automation applications, offering 8 digital input channels with CANopen communication. Operating at a nominal input voltage of 24 V DC, it features a 3 ms input filter, ensuring precise signal processing.

The device utilizes M12 screw-type connectors for secure and reliable connections. An integrated T-connector facilitates easy integration into existing systems. The housing dimensions are 30 mm in width, 210 mm in height, and 26.5 mm in depth, constructed from durable PA6 (polyamide) material.

It operates within a temperature range of 0 to 55°C and complies with protection ratings IP65/66/67, making it suitable for various industrial environments. The device is CE and UL approved, ensuring adherence to international standards.
