

### 048672-102401

Industrial automation components

<b>Manufacturer</b>	Bosch Rexroth
<b>Catalog number</b>	048672-102401
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Manufacturer</b>	Bosch Rexroth
<b>Part Number</b>	048672-102401
<b>Product Type</b>	Servo Control Module

### Description

The Bosch Rexroth 048672-102401 is a high-performance servo control module designed for precise motion control in industrial automation applications. Manufactured by Bosch Rexroth, a leader in automation technology, this module offers reliable and efficient control for various machinery and systems. Key features include advanced motion control algorithms, compatibility with Bosch Rexroth's automation platforms, and robust construction suitable for demanding industrial environments. This module is ideal for applications requiring precise speed and position control, such as robotics, CNC machines, and automated assembly lines. Its integration with Bosch Rexroth's ecosystem ensures seamless communication and optimal performance within automation systems.
