

054197-110401

Industrial automation components

Manufacturer	Bosch Rexroth
Catalog number	054197-110401
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	EPROM Module
Product Family	Bosch CNC MEM 3
Manufacturer	Bosch Rexroth
Part Number	054197-110401

Description

The Bosch Rexroth 054197-110401 is an EPROM module designed for use in CNC systems, specifically within the Bosch CNC MEM 3 series. This module is integral to the operation of CNC machinery, providing essential memory functions for precise control and operation. The EPROM module is used, exhibiting normal signs of wear, but is fully functional, ensuring reliable performance in industrial settings. It is compatible with Bosch CNC systems, offering seamless integration and support for various CNC applications. This module is ideal for businesses seeking to maintain or upgrade their CNC equipment, ensuring continued precision and efficiency in manufacturing processes.
