

CS351S-D

Industrial automation components

Manufacturer	Bosch Rexroth
Catalog number	cs351s-d
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	5 A
Power	1200 W
Component Specifications	cs351s
Interface Type	ethernet
Signal Level	230 V
Voltage	230 V

Description

The CS351S-D is an advanced component from Bosch Rexroth, designed for operation in demanding industrial conditions. The device operates at a voltage of 230V and a current of 5A, delivering a power of 1200W. Equipped with an ethernet interface, it ensures efficient communication and integration with automation systems. The signal level is 230, making it an ideal solution for modern industrial applications.
