

DKC10.3-004-3-MGP-01VRS

Industrial automation components

Manufacturer	Bosch Rexroth
Catalog number	dkc103-004-3-mgp-01vrs
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.72 kgs
Product Type	Drive
Signal Level	300 V
Voltage	300 V
Current	4 A
Signal Type	300

Description

The Bosch Rexroth DKC10.3-004-3-MGP-01VRS is a servo drive controller designed for precise control in industrial servo systems. Operating with a DC bus nominal voltage of 300 V and a rated current of 4 A, it offers a compact design suitable for applications requiring high accuracy and long service life. The controller features multi-interface, general-purpose firmware (version 01) and is part of the DKC Drive Controllers series. It supports brake resistor connection for regenerative energy handling and meets IP20 protection class standards. This unit is ideal for integration in industrial machinery such as robotics, packaging, and assembly systems.
