

EBM 1000-TA

Industrial automation components

Manufacturer	Bosch Rexroth
Catalog number	ebm-1000-ta
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	7.05 kgs
Weight	6.70 kg
Dimensions	320 mm x 110 mm x 400 mm
Product Type	Servo Drive Module
Brand	Bosch Rexroth
Part Number	EBM 1000-TA

Description

The Bosch Rexroth EBM 1000-TA is a servo drive module designed for precise motion control in industrial automation applications. This device is part of Bosch Rexroth's EBM series, known for their reliability and performance in demanding environments. The EBM 1000-TA offers a power output of 1 kW and operates at a voltage of 520V, making it suitable for various automation tasks requiring efficient and accurate control. Its robust construction ensures durability and consistent performance, even in challenging conditions. The module's compact design allows for easy integration into existing systems, facilitating seamless upgrades and expansions. Ideal for applications such as robotics, conveyor systems, and automated manufacturing processes, the EBM 1000-TA provides the necessary power and control to enhance operational efficiency and productivity.
