

FWA-ECODR3-FGP-03VRS-MS

Industrial automation components

Manufacturer	Bosch Rexroth
Catalog number	fwa-ecodr3-fgp-03vrs-ms
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Bosch Rexroth Indramat
Part Number	FWA-ECODR3-FGP-03VRS-MS
Product Type	Firmware Module
Series	ECODR3
Firmware Type	Fieldbus Interface
Version	3
Update Status	Updated at release
Language Support	Multilingual
Dimensions	70 mm x 40 mm x 30 mm
Weight	0.02 kg

Description

The Bosch Rexroth FWA-ECODR3-FGP-03VRS-MS is a firmware module designed for integration with DKC03, DKC04, DKC05, and DKC06 controllers in industrial automation systems. Manufactured by Bosch Rexroth Indramat, a division of the Germany-based Robert Bosch GmbH, this firmware is part of the ECODR3 series, offering advanced features for motion control applications. The 'FGP' designation indicates it is a Fieldbus Interface firmware, facilitating seamless communication between controllers and drives. As a version 3 firmware, it provides enhanced functionality and stability, with updates applied at the time of release. The 'MS' suffix denotes multilingual support, making it suitable for diverse operational environments. This firmware is ideal for applications requiring precise motion control, such as packaging systems, conveyor belts, and CNC machinery. Its compatibility with multiple controller types and its advanced features make it a valuable component in optimizing automation processes.
