

### VM100/R-TA

Industrial automation components

<b>Manufacturer</b>	Bosch Rexroth
<b>Catalog number</b>	vm100r-ta
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Brand</b>	Bosch Rexroth
<b>Part Number</b>	VM100/R-TA
<b>Product Type</b>	Power Supply Module
<b>Dimensions</b>	320 mm x 390 mm x 140 mm
<b>Weight</b>	15.00 kg

### Description

The Bosch Rexroth VM100/R-TA is a high-performance power supply module designed for industrial automation applications. Manufactured by Bosch Rexroth, a global leader in drive and control technologies, this module ensures reliable and efficient operation in demanding environments. The VM100/R-TA is engineered to provide consistent power delivery, supporting various automation systems and machinery. Its robust construction and advanced features make it a preferred choice for industries requiring dependable power solutions. Key characteristics include its compatibility with Bosch Rexroth's automation systems, ensuring seamless integration and optimal performance. This module is ideal for applications where uninterrupted power supply is critical for operational success.
