Manufacturer	Bussmann
Catalog number	hmi
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Bussmann
Part Number	HMI
Product Type	Fuse Holder
Fuse Diameter	6.35mm
Maximum Current	20A
Voltage Rating	32VAC V
Typ montażu	In-Line
Temperature Rating	140°C
Color	Black

Description

The Bussmann HMI fuse holder is a high-quality component designed for in-line mounting of cylindrical fuses with a 6.35mm diameter. It supports a maximum current of 20A and operates at 32VAC, making it suitable for low-voltage, low-amperage control circuits.

The fuse holder features a bayonet-type knob release for secure fuse retention and easy replacement. Constructed with durable materials, it ensures reliable performance in various industrial applications.

The black color and compact dimensions of 0.69 inches in diameter and 2.19 inches in length allow for versatile installation in confined spaces. This fuse holder is compatible with SFE-14 fuses and is rated for continuous operation at temperatures up to 140°C.
