

EP209-I00-ENR0

Industrial automation components

Manufacturer	Control Techniques
Catalog number	ep209-i00-enr0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	9 A
Signal Type	230
Signal Level	230 V
Relay Specifications	230 VAC
Component Specifications	ep209
Product Type	Drive

Description

The EP209-I00-ENR0 drive from CONTROL TECHNIQUES is an advanced solution that offers a current rating of 9. This product features the component specification of ep209, ensuring high performance and reliability. The signal type and signal level are both rated at 230, making it ideal for applications requiring precise control. Additionally, the relay specification is also 230, highlighting its versatility in various industrial applications.
