

M155R-14ICD

Industrial automation components

Manufacturer	Control Techniques
Catalog number	m155r-14icd
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Frequency	50 - 60 Hz
Product Type	Drive
Voltage	220 - 480 V
Horsepower	75 HP
Measurement Range	220 - 480
Signal Type	480
Signal Level	480 V

Description

The M155R-14ICD is an advanced drive from Control Techniques, designed to operate within a voltage range of 220 to 480 V and a frequency of 50-60 Hz. It offers a motor power of 75 kW, making it an ideal solution for various industrial applications. This drive features a wide measurement range and a high signal level, ensuring precise control and monitoring. Its robust construction and reliability make it an excellent choice for demanding production environments.
