

SP0201

Industrial automation components

Manufacturer	Control Techniques
Catalog number	sp0201
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Component Specifications	sp0201
Current	2.2 A
Horsepower	0.5
Signal Type	230
Signal Level	230 V
Relay Specifications	2 A

Description

The SP0201 is an advanced control component that handles a current of 2.2 A. Its motor power is 0.5 kW, making it an ideal solution for applications requiring precise energy management. The signal type and signal level are both 230 V, ensuring compatibility with a wide range of systems. Additionally, the relay specification is 2, enhancing its functionality in various industrial applications.
