

371D266G02

Industrial automation components

Manufacturer	Eaton
Catalog number	371d266g02
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	30 A
Relay Specifications	30 A
Product Type	Switch

Description

The EATON 371D266G02 switch is an advanced device designed for industrial applications. It features a nominal current of 30 A, making it an ideal solution for demanding applications. The relay specification also stands at 30, ensuring reliability and efficiency in operation. This switch combines high-quality construction with functionality, making it an excellent choice for professionals in the industry.
