

## A02B-0281-C125

Industrial automation components

<b>Manufacturer</b>	Fanuc
<b>Catalog number</b>	a02b-0281-c125
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Display Size</b>	10.4 inches
<b>Display Type</b>	FA-LCD
<b>Origin</b>	Japan
<b>Compatibility</b>	Fanuc control systems
<b>Replacement for</b>	Older CRT units

### Description

The Fanuc A02B-0281-C125 is a 10.4-inch FA-LCD display unit engineered for high-reliability CNC operations. Manufactured in Japan, this original equipment offers exceptional durability and seamless compatibility with Fanuc control systems. Designed to replace older CRT units, it ensures stable visibility and reduced power consumption, making it ideal for machine tool builders and factories operating continuous production lines. Key features include a high-resolution display for clear images and text, energy efficiency compared to traditional CRT monitors, and a compact, lightweight design for easy installation and maintenance. Applications span various industries requiring precision machining and reliable automation, such as automotive, aerospace, medical equipment, and heavy industry. As a genuine Fanuc part, the A02B-0281-C125 guarantees superior lifespan and access to Fanuc-certified service and documentation.
