

## A03B-0815-C003

Industrial automation components

<b>Manufacturer</b>	Fanuc
<b>Catalog number</b>	a03b-0815-c003
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.10 kgs
<b>Digital Inputs</b>	24 inputs
<b>Digital Outputs</b>	16 outputs
<b>Operating Temperature Range</b>	0°C to 55°C
<b>Compatible Systems</b>	Fanuc F16i, F18i, F21i systems
<b>Mounting Type</b>	Panel or Rack Mounting type
<b>Warranty Period</b>	12 months
<b>Country of Manufacture</b>	Japan country

### Description

The Fanuc A03B-0815-C003 is a digital I/O expansion module designed to enhance the input and output capabilities of Fanuc CNC and PLC control systems. This module features 24 digital inputs and 16 digital outputs, facilitating seamless integration with existing control cabinets to manage sensors, switches, and actuators effectively. It operates within an ambient temperature range of 0°C to 55°C, ensuring reliable performance in various industrial environments. The module is compatible with Fanuc F16i, F18i, and F21i systems, making it a versatile solution for expanding I/O capacity. Its compact design allows for easy panel or rack mounting, optimizing space utilization in control panels. The A03B-0815-C003 is engineered for durability and long-term reliability, backed by a 12-month warranty, and is manufactured in Japan, reflecting high-quality standards.
