

A03B-0819-C011

Industrial automation components

Manufacturer	Fanuc
Catalog number	a03b-0819-c011
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.30 kgs
Product Type	I/O Interface Module
Input Voltage	24 VDC
Maximum Current	2 A
Input/Output Points	32 points
Dimensions	135 mm x 135 mm x 35 mm
Compatibility	FANUC CNC controllers

Description

The Fanuc A03B-0819-C011 is a compact I/O interface module (Model AIF01A) designed for seamless integration into FANUC CNC systems. Operating on a 24 VDC input with a maximum current of 2 A, it facilitates efficient communication between control systems and field devices, supporting 32 digital input/output points. This module is engineered to withstand industrial environments, offering reliable performance in machining applications. Its compact dimensions (135 mm x 135 mm x 35 mm) and lightweight design (approximately 0.30 kg) ensure easy installation and minimal space usage within control cabinets. The A03B-0819-C011 is compatible with various FANUC CNC controllers, making it a versatile choice for enhancing automation capabilities in manufacturing processes.
