

A03B-0823-C011

Industrial automation components

Manufacturer	Fanuc
Catalog number	a03b-0823-c011
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.39 kgs
Input Voltage	24V DC V
Input Current	1.3A max. A
Output Voltage	12-24V DC V
Output Current	0.2A per point A
Weight	6.0 kg

Description

The Fanuc A03B-0823-C011 is a Terminal Type I/O Basic Module designed for seamless integration into industrial automation systems. Manufactured by Fanuc, a leader in automation technology, this module offers reliable performance and compatibility within the A03B-0823 product series. It features a 24V DC input with a maximum current of 1.3A, and digital outputs operating at 12-24V DC with a maximum current of 0.2A per point. The module has a weight of 6.0 kg, ensuring robust construction suitable for demanding industrial environments. This module is ideal for applications requiring precise control and monitoring, enhancing operational efficiency and system reliability.
