

A05B-2255-C101#EAW

Industrial automation components

Manufacturer	Fanuc
Catalog number	a05b-2255-c101eaw
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Teach Pendant
Application Area	Arc Welding
Interface	Touchscreen
Compatibility	Fanuc iPendant
Design	Ergonomic

Description

The Fanuc A05B-2255-C101#EAW is an advanced teach pendant designed specifically for arc welding applications. Manufactured by Fanuc, a leader in industrial automation, this pendant offers a touch interface that enhances user control and precision during welding operations. It is compatible with Fanuc's iPendant system, providing seamless integration with various robotic systems. The ergonomic design ensures comfortable handling, even during extended use, while the durable construction withstands the demanding conditions of welding environments. Key features include a responsive touchscreen for intuitive navigation, customizable key layouts tailored for welding tasks, and robust connectivity options for reliable communication with robotic controllers. This pendant is ideal for operators seeking to optimize their welding processes, offering both functionality and durability in a single device.
