

A05B-2301-C330

Industrial automation components

Manufacturer	Fanuc
Catalog number	a05b-2301-c330
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Teach Pendant
Product Family	R-J2 Series
Application Area	Spot Welding
Brand	Fanuc
Part Number	A05B-2301-C330

Description

The Fanuc A05B-2301-C330 is a teach pendant designed for spot welding applications within the R-J2 series. This device serves as an operator interface, enabling precise control and programming of Fanuc robotic systems. Its ergonomic design ensures ease of use, facilitating efficient operation in industrial settings. The teach pendant is built to withstand the rigors of industrial environments, offering durability and reliability. It is compatible with Fanuc's R-J2 series robots, making it a valuable tool for manufacturers seeking to enhance their automation processes. Key features include a user-friendly interface, robust construction, and seamless integration with Fanuc robotic systems.
