

A05B-2518-C306#EGN

Industrial automation components

Manufacturer	Fanuc
Catalog number	a05b-2518-c306egn
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A05B-2518-C306#EGN
Product Type	Engineering Teach Pendant
Interface	Membrane Keyboard and LCD Display
Ergonomic Design	Yes
Compatibility	Various Fanuc Robot Models
Durability	High

Description

The Fanuc A05B-2518-C306#EGN is an engineering teach pendant designed for advanced control and programming of industrial robots. Manufactured by Fanuc, a leader in industrial automation, this pendant offers a robust and user-friendly interface for precise robot operation. It features a membrane keyboard and an LCD display, facilitating intuitive programming and control. The pendant's ergonomic design ensures comfortable use during extended periods, making it ideal for tasks such as teaching new motion sequences, fine-tuning existing programs, and monitoring robot performance. Its compatibility with various Fanuc robot models enhances its versatility in diverse industrial applications. The A05B-2518-C306#EGN is built to withstand demanding industrial environments, ensuring durability and reliability. Whether you're looking to replace an existing pendant or enhance your robot's capabilities, this model provides a dependable solution for your automation needs.
