Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Fanuc
Part Number	A05B-2600-K164
Product Type	Industrial Automation Component
Compatibility	Fanuc Robotic Controllers
Construction	Robust
Installation	Easy

Description

The Fanuc A05B-2600-K164 is a high-quality industrial automation component designed for seamless integration into Fanuc robotic systems. Manufactured by Fanuc, a leading provider of automation solutions, this part ensures optimal performance and reliability.

It is ideal for applications requiring precise control and efficient operation within automated environments. Key features include robust construction, compatibility with various Fanuc controllers, and ease of installation, making it a preferred choice for enhancing automation processes.
