Manufacturer	Fanuc
Catalog number	a06b-0034-b0787000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0034-B078#7000
Product Type	AC Servo Motor
Series	Beta 6/2000
Shaft Type	Straight
Encoder Type	A8B Incremental Encoder

Description

The Fanuc A06B-0034-B078#7000 is a high-performance AC servo motor from Fanuc's Beta 6/2000 series, designed for precision and reliability in industrial automation applications. This model features a straight shaft configuration, ensuring straightforward integration into various machinery setups.

Equipped with an A8B incremental encoder, it provides accurate position feedback, essential for precise motion control in automated systems. The motor's robust construction and advanced design make it suitable for demanding environments, offering enhanced durability and consistent performance.

Ideal for applications requiring high torque and speed control, the A06B-0034-B078#7000 delivers efficient and reliable operation, contributing to the optimization of industrial processes.
