

A06B-0078-B503

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-0078-b503
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	AC
Product Type	Motor

Description

The FANUC A06B-0078-B503 is a high-quality AC motor designed for industrial applications. It features reliability and efficiency, making it an ideal solution for automated systems. Its construction ensures long-lasting performance in challenging conditions, as well as ease of integration with existing systems. This motor is a key component in many applications where precision and power are essential.
