Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0127-B577
Product Type	AC Servo Motor
Series	Alpha 6/2000
Shaft Type	Straight
Encoder Type	i64 Incremental Encoder

Description

The Fanuc A06B-0127-B577 is an AC servo motor from the Alpha 6/2000 series, designed for high-precision industrial applications. It features a straight shaft configuration, ensuring seamless integration into various machinery.

The motor is equipped with an i64 incremental encoder, providing accurate position and speed feedback for precise motion control. This model is ideal for applications requiring reliable and efficient performance, such as CNC machines and automated systems.

Please note that availability may vary, and it's recommended to contact the supplier for current stock information.
