Manufacturer	Fanuc
Catalog number	a06b-0205-b301
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0205-B301
Product Type	AC Servo Motor
Product Series	A06B-0205
Shaft Type	Tapered
Brake Voltage	24V
Encoder Type	i1000

Description

The Fanuc A06B-0205-B301 is a high-performance AC servo motor from Fanuc's Alpha iF series, designed for precision and reliability in industrial automation applications. This model features a tapered shaft (TPR) and a 24V brake, ensuring secure and accurate operation.

The i1000 encoder provides precise feedback for enhanced motion control. With a robust design, it is suitable for various applications requiring high torque and speed control. For detailed specifications and compatibility, refer to the manufacturer's datasheet or consult with authorized distributors.
