

A06B-0212-B605#S000

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-0212-b605s000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.76 kgs
Voltage	AC
Current	240 A
Frequency	50 - 60
Product Type	Motor

Description

The Fanuc A06B-0212-B605#S000 is an AC servo motor from the AiS2/5000 series, engineered for high-precision applications in industrial automation. This model features a tapered shaft (TPR) and a 90V brake (BRK), ensuring reliable performance and precise control in various settings. Designed for integration into Fanuc's automation systems, it offers seamless compatibility and efficient operation. The motor's robust construction and advanced features make it suitable for demanding tasks requiring consistent and accurate motion control.
