Manufacturer	Fanuc
Catalog number	a06b-0238-b400
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Fanuc
Part Number	A06B-0238-B400
Product Type	AC Servo Motor
Model	AiS12/4000
Shaft Design	Straight Shaft (ST)
Sealed Construction	Yes
Brake Type	24V DC Brake (BRK)
Compatibility	a1000 Series

Description

The Fanuc A06B-0238-B400 is a high-performance AC servo motor designed for precise motion control in industrial automation applications. Manufactured by Fanuc, a leading provider of automation solutions, this model features the AiS12/4000 series, offering exceptional speed and torque capabilities.

The motor is equipped with a straight shaft (ST) design, facilitating seamless integration into existing machinery. Its sealed construction ensures reliable operation in environments exposed to dust, debris, and moisture.

Additionally, the motor includes a 24V DC brake (BRK) for enhanced safety during operation. Compatible with the a1000 series, it provides versatility and flexibility for various applications. This servo motor is ideal for tasks requiring high precision and durability, such as CNC milling, advanced machining, and commodity production.
