Manufacturer	Fanuc
Catalog number	a06b-0840-b3013000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0840-B301#3000
Product Type	AC Spindle Motor
Napięcie zasilania	173/200V
Rated Output	2.2 kW
Maximum Speed	6,000 RPM
Dimensions	190 mm x 190 mm x 380 mm
Weight	18.4 kg

Description

The Fanuc A06B-0840-B301#3000 is an AC spindle motor designed for high-performance applications in industrial automation. Manufactured by Fanuc, a leader in automation technology, this motor is part of the Alpha series, known for its reliability and efficiency.

The model features a flange-mounted design with a slick shaft (SLK) and front exhaust, ensuring smooth operation and easy integration into various machinery setups. With a rated output of 2.2 kW and a maximum speed of 6,000 RPM, it delivers robust performance suitable for demanding tasks.

The motor operates at a voltage of 173/200V, making it compatible with standard industrial power supplies. Its compact dimensions—190 mm in height, 190 mm in width, and 380 mm in length—along with a weight of 18.4 kg, facilitate straightforward installation and maintenance.

This motor is ideal for applications requiring precise control and high-speed operation, such as CNC machines and other automated equipment.
