Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0853-B100#3000
Product Type	AC Spindle Motor
Series	Alpha
Typ montażu	Flange Mounted
Keyway	Has Key
Exhaust Type	Rear
Maximum Speed	8,000 RPM
Rated Output	3.7 kW

Description

The Fanuc A06B-0853-B100#3000 is an AC spindle motor from Fanuc's Alpha series, designed for high-performance applications requiring precise control and reliability. This model features a flange mount with a keyway and a rear exhaust, ensuring secure installation and efficient cooling.

Operating at a maximum speed of 8,000 RPM, it delivers a rated output of 3.7 kW, making it suitable for demanding industrial environments. The '#3000' designation indicates that this model is identical to the version without the '#' sign, facilitating easy identification.

This motor is compatible with various Fanuc CNC systems and is ideal for applications such as milling, drilling, and other precision machining tasks. Its robust construction and advanced design ensure long-term durability and consistent performance.
