Manufacturer	Fanuc
Catalog number	a06b-0866-b300
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Fanuc
Part Number	A06B-0866-B300
Product Type	AC Spindle Motor
Power Rating	0.5 kW
Maximum Speed	3000 RPM

Description

The Fanuc A06B-0866-B300 is an industrial AC spindle motor designed for high-performance applications in CNC machinery. Manufactured by Fanuc, a leading provider of automation solutions, this motor is part of the Alpha series, known for its precision and reliability.

The A06B-0866-B300 model features a 0.5 kW power rating and operates at a maximum speed of 3000 RPM, making it suitable for a wide range of machining tasks. Its robust construction ensures durability and consistent performance in demanding industrial environments.

This motor is compatible with various Fanuc CNC systems, providing seamless integration and enhanced operational efficiency. Whether you're upgrading existing equipment or building new systems, the A06B-0866-B300 offers a reliable solution for your automation needs.
