

A06B-6047-H003

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6047-h003
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	7.20 kgs
Voltage	DC
Product Type	Drive
Weight	7.20 kg
Dimensions	50 × 40 × 30 cm
Model	10/20 M
Product Line	A06B
Servo Motor Compatibility	10M, 20M DC Servo Motors
Operating Temperature Range	0 to 40 degrees Celsius °C
Vibration Resistance	5G
Weight	15.87 pounds lbs

Description

The Fanuc A06B-6047-H003 is a DC servo drive designed for precise motion control in industrial automation applications, particularly within CNC machining and robotics. Manufactured by Fanuc, a leader in industrial automation, this model is part of the A06B series and is engineered to deliver high-performance interaction with servo amplifiers. It is typically used with small to medium-sized CNC machine tools and is compatible with Fanuc control systems such as the 3, 6, 10, and 11 series. The A06B-6047-H003 is a single-axis drive unit that operates with DC model 10M or 20M motors, providing reliable and efficient control for various industrial applications.
