

A06B-6055-H212

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6055-h212
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	AC
Product Type	Drive

Description

The A06B-6055-H212 is an industrial drive from FANUC, designed for operation in alternating current power systems. This product features high efficiency and reliability, making it an ideal solution for automated industrial processes. With advanced technology, this drive ensures precise control and optimization of machine performance.
