

A06B-6058-H331

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6058-h331
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	9.62 kgs
Voltage	AC
Signal Level	200 V
Product Type	Drive
Brand	Fanuc
Part Number	A06B-6058-H331
Series	A06B-6058
Application Area	Industrial Automation Systems
Product Series	A06B-6058
Control Type	Digital
Number of Axes	3

Description

The Fanuc A06B-6058-H331 is a 3-axis AC digital servo drive designed for precise motion control in industrial automation systems. Manufactured by Fanuc, a leader in automation technology, this servo drive offers high performance and reliability for demanding applications. It is part of the A06B-6058 series, known for its advanced features and robust design. The A06B-6058-H331 is suitable for various industrial applications requiring accurate speed control and positioning. Key characteristics include its compact design for easy installation and operation, and its high-quality construction ensuring durability in challenging environments. This servo drive is ideal for systems where precise motion control is essential.
