

A06B-6066-H235

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6066-h235
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	5.90 kgs
Product Type	Dual-Axis Servo Amplifier
Product Series	C Series
Configuration	2-0SP/1-0SP, 5S/3000
Application Area	Industrial Automation Systems
Manufacturer	Fanuc
Repair Services	Available

Description

The Fanuc A06B-6066-H235 is a dual-axis servo amplifier designed for precise motion control in industrial automation systems. Part of Fanuc's C Series, this model supports configurations such as 2-0SP/1-0SP and 5S/3000, catering to various application requirements. It is engineered to deliver reliable performance, ensuring smooth operation and enhanced productivity in manufacturing processes. The A06B-6066-H235 is compatible with specific Fanuc servo motors, providing seamless integration within Fanuc's automation ecosystem. Its robust design and advanced features make it a valuable component for industries seeking efficient and precise motion control solutions.
