

A06B-6077-H002

Industrial automation components

Manufacturer	Fanuc
Catalog number	a06b-6077-h002
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	200 V
Signal Type	200
Signal Level	200 V
Product Type	Module

Description

The A06B-6077-H002 module from FANUC is an advanced device designed for operation in demanding industrial environments. Powered by a voltage of 200V, this module handles signal levels of 200, ensuring high precision and reliability in automation applications. Its design and technical specifications make it an ideal solution for complex control systems.
